

Two best practices of Vinayak International P.G. College

Our college is always committed to maintain its worthiness and high esteem through a system of conscious, consistent and catalytic action to improve the academic and administrative performance of the institution & to promote measures for institutional functioning towards quality enhancement through internalization of quality culture and Institutionalization of Best Practices. We are following one of the best practices in the area of Cultural Activities to fulfill the needs & aspirations of students as well as society with the Title as “Cultural Activities: A pioneer in Personality Development”.

Overall development of student’s personality is the ultimate goal of education. Extra co-curricular activities being an inalienable part of education have been at the fore-front in realizing this goal. Cultural activities provide a window to the outside world, thus, providing opportunities to interact with the world and enrich himself/herself with the first-hand experience. These activities not only develop personality of the students but also explore the talents of the outshining and meritorious students. The cultural activities help the students realize their full potential and contribute to the society in a big way. Our institute endeavours perpetually to strain every nerve to provide every possible opportunity to the students so that they are able not only to avail opportunity but also express their inherent and latent talents. Culture being a blueprint of life activities is inclusive of every aspect of our life. It is a major player in shaping our attitudes, habits, actions and thoughts. In this age of globalization there is an urgent need to appreciate and understand the unique culture of our country. In this way students are encouraged to explore and experience personally the traditions, beliefs, values and life style of our country. In this era of fast disappearing traditional activities and a growing inclination towards the western culture is a serious cause of concern today. By means of these activities, students are made to realize for instance value of joint family and bones of love affection among the family members as well as the root cause of strained family relations which is glaring reality today. As higher education in India, emphasizes personality development through extra co-curricular activities, providing maximum possible opportunities to the students to interact with the outside world.

Coaching for competitive Examinations is another best practice that our college is following. We have been in forefront in transforming students into powerful leaders with our expert student oriented services. Every year lakhs of positions in state and central government are filled through competitive recruitment exams conducted by PUPSC, MPSC, Staff Selection Commission, IBPS, Railways, RBI and others. Given the very competitive nature of these exams, students need to start their preparation early. Competitive exams Training lays a solid foundation for various competitive recruitment exams. We covers key topics common to all competitive recruitment Exams. Our students develop insightful understanding of these exams and can make them into a potential career avenue leading to fulfilling careers immediately after their graduation. As most of the syllabus for these exams is common, we take common classes for most of the time so as students can appear for various exams. They can make brilliant, rewarding careers while serving the nation. This preparation develops their command of the English language, reasoning ability, critical thinking and quantitative ability needed to succeed in numerous other careers.
